

Safety Data Sheet

GLISTEN

Section 1. Product and Company Identification

Product Name: GLISTEN **Other Means of Identification:** Not applicable

Product Use: Foaming Bathroom Cleaner **Restrictions On Use:** For industrial, institutional and professional use

Manufacturer: Sanilabs Inc. **Address:** 90 Turbine Drive, Toronto, Ontario M9L 2S2
Telephone: (416) 744-0040 **Fax:** (416) 744-0020
Website: www.sanilabs.com

Emergency Telephone Number: 1-888-CAN-UTEC (226-8832), or 666 on cellular phone

Section 2. Hazards Identification

GHS Classification: Skin Corrosion - Category 2
Serious Eye Damage - Category 1
Corrosive to Metals - Category 1

GHS Label Elements:

Hazard Pictograms:

Signal Word:

Danger

Hazard Statements:

Harmful if swallowed.
Causes severe skin burns and eye damage.
Harmful if inhaled.
May be corrosive to metals.

Precautionary Statements

Prevention:

Wear protective gloves/protective clothing/ eye protection/ face protection. Avoid breathing dust/ fume/ gas/ mist/vapours/ spray. Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product.

Response:

IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor/ physician. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/ physician. Wash contaminated clothing before reuse. Absorb spillage to prevent material damage.

Storage:

Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Disposal:

Dispose of contents and container in accordance with all local, regional, national and international regulations.

Other Hazards:

None known.

Section 3. Composition / Information on Ingredients

Pure Substance / Mixture: Mixture

<u>Chemical Name</u>	<u>CAS#</u>	<u>Concentration (% by Weight)</u>
Urea, Monohydrochloride	506-89-8	10-30

Section 4. First Aid Measures

Eye Contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Skin Contact: Wash off immediately with plenty of water for at least 15 minutes. Use a mild soap if available. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

Ingestion: Rinse mouth with water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Inhalation: Remove to fresh air. Treat symptomatically. Get medical attention.

Most Important Symptoms/Effects, Acute and Delayed

Potential Acute Health Effects

Eye Contact: Causes serious eye damage.
Skin Contact: Causes severe skin burns.
Ingestion: Causes digestive tract burns.
Inhalation: May cause nose, throat, and lung irritation.

Over-Exposure Signs/Symptoms

Eye Contact: Redness, pain, watering or irritation
Skin Contact: Redness, pain, blistering or irritation
Ingestion: Abdominal / stomach pain
Inhalation: Respiratory irritation, cough

Indication of [Immediate Medical Attention and Special Treatment Needed, if Necessary

Notes to Physician: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific Treatments: No specific treatment.

First-Aider Protection: If potential for exposure exists refer to Section 8 for specific personal protective equipment. No action shall be taken involving any personal risk without suitable training.

See Toxicological Information (Section 11) for more detailed information on health effects and symptoms.

Section 5. Fire-Fighting Measures

Suitable Extinguishing Media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media: None known.

Specific Hazards During Fire-fighting: Not flammable or combustible. High heat or fire may cause container to melt or burst due to a pressure increase.

Hazardous Combustion Products: Decomposition products may include carbon oxides, nitrogen oxides, sulfur oxides, phosphorus oxides.

Fire-Fighter Special Protective Equipment: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Fire-Fighter Special Precautions: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk without suitable training. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.

Methods and Materials for Containment and Cleaning Up

Small spill Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. See Section 13 for additional disposal information.

Environmental Precautions

Do not allow contact with soil, surface or ground water.

Section 7. Handling and Storage

Precautions for Safe Handling

Protective Measures: Put on appropriate personal protective equipment (see Section 8).

Advice on Safe Handling: Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe vapour or mist. Use only with adequate ventilation. Wash hands thoroughly after handling. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See Section 8 for additional information on hygiene measures.

Conditions for Safe Storage: Keep out of reach of children. Keep container tightly closed. Store in suitably labelled original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Do not store near acids.

Section 8. Exposure Controls / Personal Protection

Components with Workplace Control Parameters

Contains no substances with occupational exposure limit values.

Appropriate Engineering Controls

Effective exhaust ventilation system. Maintain air concentrations below occupational exposure standards.

Personal Protective Equipment

Eye Protection:	Use chemical splash goggles. For continued or severe exposure, wear a face shield.
Hand Protection:	Wear chemical resistant, impervious gloves. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Skin Protection:	Wear other protective equipment / clothing as necessary to prevent skin contact.
Respiratory Protection:	When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.
Hygiene Measures:	Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

Section 9. Physical and Chemical Properties

Appearance:

Physical State:	Liquid
Colour :	Clear blue
Odour:	Characteristic Odour Counteractant
Odour Threshold:	No data available
pH:	1 - 3
Melting Point/Freezing Point :	No data available
Initial Boiling Point/Boiling Range:	>100°C
Flash Point (Closed Cup):	Not applicable. (Product does not sustain combustion.)
Evaporation Rate:	No data available
Flammability (Solid, Gas):	Not applicable (liquid)
Upper Explosive (Flammable) Limit :	No data available
Lower Explosive (Flammable) Limit :	No data available
Vapour Pressure:	No data available
Vapour Density:	No data available
Relative Density:	1.03
Solubility:	Soluble in water
Partition Coefficient (n-octanol/water):	No data available
Auto-Ignition Temperature:	No data available
Decomposition Temperature:	No data available
Viscosity:	<25 cps

Section 10. Stability and Reactivity

Reactivity:	No specific test data related to reactivity available for this product or its ingredients
Chemical stability:	Stable under normal conditions
Possibility of Hazardous Reactions:	Under normal storage and use conditions, hazardous reactions will not occur
Conditions to Avoid:	None known
Incompatible Materials:	Acids, metals
Hazardous Decomposition Products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Decomposition products during combustion may include carbon oxides, nitrogen oxides, sulfur oxides, phosphorus oxides.

Section 11. Toxicological Information

Information on Likely Routes of Exposure: Eye contact, Skin contact, Ingestion, Inhalation

Potential Acute Health Effects

- Eye Contact:** Causes serious eye damage.
- Skin Contact:** Causes severe skin burns.
- Ingestion:** Causes digestive tract burns.
- Inhalation:** May cause nose, throat, and lung irritation.

Symptoms Related to the Physical, Chemical and Toxicological Characteristics

- Eye Contact:** Redness, pain, watering or irritation
- Skin Contact:** Redness, pain, blistering or irritation
- Ingestion:** Abdominal / stomach pain
- Inhalation:** Respiratory irritation, cough

Delayed and Chronic Effects from Short and Long Term Exposure: No known significant effects or critical hazards.

Toxicity

- Product Acute Oral Toxicity Estimate: >5000 mg/kg
- Product Acute Dermal Toxicity Estimate: >5000 mg/kg
- Product Acute Inhalation Toxicity Estimate: >5000 ppm
- Aspiration Toxicity: No data available
- Respiratory or Skin Sensitization: No data available
- Carcinogenicity: No known significant effects or critical hazards
- Reproductive Toxicity: No known significant effects or critical hazards
- Mutagenicity: No known significant effects or critical hazards
- Teratogenicity: No known significant effects or critical hazards
- Developmental Effects: No known significant effects or critical hazards
- Specific Target Organ Toxicity (single exposure): No known significant effects or critical hazards
- Specific Target Organ Toxicity (repeated exposure): No known significant effects or critical hazards

Toxicity Data for Ingredients

Ingredient	Test	Route	Result	Species
Urea Monohydrochloride	LD ₅₀	Oral	1121 mg/kg	Rat

Section 12. Ecological Information

Ecotoxicity

No data available

Persistence and Degradability

No data available

Bioaccumulative Potential

No data available

Mobility in Soil

No data available

Other Adverse Effects

No known significant effects or critical hazards

Section 13. Disposal Considerations

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and any local, provincial/state and federal regulations. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. Empty containers may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport Information

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

Land Transport (TDG)

UN Number: 3265
 Proper Shipping Name: CORROSIVE LIQUID, ACIDIC, ORGANIC, N.O.S. (urea, monohydrochloride)
 Class: 8
 Packing Group: III
 Environmentally hazardous: No

Sea Transport (IMDG/IMO)

UN Number: 3265
 Proper Shipping Name: CORROSIVE LIQUID, ACIDIC, ORGANIC, N.O.S. (urea, monohydrochloride)
 Class: 8
 Packing Group: III
 Marine Pollutant: No

Section 15. Regulatory Information

Canadian Domestic Substances List (DSL)

All components of this product are listed or exempted.

United States TSCA Inventory

All components of this product are listed or exempted.

Hazardous Material Information System:	Health: 3	Flammability: 0	Physical Hazards: 1
National Fire Protection Association:	Health: 3	Flammability: 0	Instability: 1 Special Hazard: -

Section 16. Other Information

Prepared By: Regulatory Affairs **Telephone:** (416) 744-0040 **Date:** April 20, 2018

To the best of our knowledge, the information provided in this Safety Data Sheet is accurate at the date of its publication. However, neither the above-named manufacturer or supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
