

Property Department Monthly Report - May

Priority Repair Record:

The first number appearing in the column under the month is the number of work orders placed; the percentage reflects the work completed within the timelines.

Please note, in January 2022, we recategorized some of the plumbing issue work orders (for example, clogged drains) from Priority 3 up to Priority 2 in order to optimize the services being provided to our residents; this change has significantly increased the number of Priority 2 totals for January 2022 in the chart below.
